

## TAP AERATORS

**Restrict the flow of water from your tap without reducing water pressure**

### DIMENSIONS

Diameter:	20.8mm
Height:	14.4mm

### DESIGN

This simple and cost effective design solution is guaranteed to make your taps more water and energy efficient.

### FLOW RATE

Available in 3 different flow rates:

- 3.5 litres per minute
- 5 litres per minute
- 7 litres per minute

### FEATURES & SAVINGS

- + Reduces waste of water and energy, by up to 60% on most taps
- + Flow rate of 3.5 litres a minute compared to standard wasteful output of up to 15 litres
- + Offers savings up to 300% on water usage on taps with uncontrolled stream
- + Easy to fit - converts wash basins in the home or workplace with minimum interruption.
- + Fully aerated stream limiting splash
- + High quality construction
- + Contains anti-limescale materials approved to BS6920 for potable water
- + Aerated stream reduces detergent use when washing - thereby helping the environment
- + Enhanced velocity of stream added to aeration gives improved comfort of use
